

Get better results for your practice

Facebook Leads Posting program for the dental industry

Overview

If it seems like “everyone’s on Facebook” --- well, you’re right! The facts are staggering. According to Pew Research, **79% of online adults and 68% of all Americans use Facebook!** With those statistics, your business needs to take part in reaching this audience. [Click report here.](#)

We provide dentists with a ***guaranteed readership from your Facebook customer base***. Our editors put together informative, engaging and interesting offers that generate incredible attention. Best of all, Facebook allows us to reach their users based upon their location and searching habits.

This means that if you want to reach people who need dentures - we can do that. If you want to reach families who are more likely to need braces - we can do that. If you want to reach those more likely to want cosmetic dentistry - we can do that.

And at an affordable cost with no pay per click

And we’re fine with your budget; from \$500 to \$5,000...

Here's How it works: We select your audience readership based upon their age, interests, hobbies and location. We then write a post with a special offer in it, and directly placed this post into the "news feeds" of users we selected in your area.

Readers click "learn more" about the offer, upon which time they are asked to fill in a form to get that offer and to have someone contact them.

The leads are then sent to your office for follow up.

Costs for our program vary, depending on the size of your market and how long we run the campaign for. Generally, we find the cost to be between \$20-\$35 per lead.

Don't wait to get started! Get the jump on this program before others do. We run these campaigns as exclusive marketing for our clients. Once you give us the go ahead we do not run the same offers for other practices in your area.
